Total				

Section 3 B: Academic Achievements, Extra-curricular Activities and Honours

Describe your academic profile along with a list of relevant courses you have taken. Provide a list of scholarships, prizes, or honors awarded to you. Also, describe your co-curricular and extra-curricular activities.

Section 4: Software Project Experience

Give the details of your employment experiences (if any), and software engineering project experiences, both academic and industry. (Attach separate sheets)

Section 5: Critical Essay

The essay is an important part of your application packet, and helps the Admissions Committee to better understand your background, your goals, and your suitability as a candidate. Successful essays are those that provide clear descriptions into what you have done, what you are hoping to accomplish as a student of this program, and what is truly unique about you as a candidate. Please attach a separate sheet of your essay answering the following questions:

1. Why would you like to pursue the Carnegie Mellon – SSN Master of Science in Information Technology – Software Engineering (MSIT-SE) degree?
2. Describe your relevant academic, industrial, and/or commercial experience, and explain how this experience has prepared you to be successful in this program.
3. Choose one of the projects described above in question #2, and explain an aspect of the project that didn't go according to plan. What lessons did you learn from this experience?
4. Provide any additional information that you want the Admissions Committee to know about you.
